Art Unit: 1616

Prosecution is reopened in view of a finding of new art:

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 7-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rabe et al in view of Dupont et al.

Rabe et al teach cosmetic products (title). Improved lubricity is disclosed (column 2 line 25). WP-660 is specified (column 8 line 23), the same polymer applicants disclose on page 13 paragraph 45). Eye shadow is disclosed (column 19 example 6).

Dupont et al teach cartilage extract. Cosmetic compositiona sre disclosed (column 4 lines 53-55). Reduction of dark circles around the eyes is specified (column 4 line 67-column 5 line 1).

It would have been obvious to one of ordinary skill in the art to add the extract of Dupont et al to the composition of Rabe et al to achieve the beneficial effect of reducing dark circles around the eyes.

No claims allowed.
